AIRPAX

SIMPLE. ROBUST. EFFICIENT.

CHARACTERISTICS

60 kg less weight! 6 additional seats! Easily accessible lavatories in a narrow-body aircraft! All of this and much more has been made possible by Diehl Aviation. It even has a name: AirPax. Developed for the needs of crew and passengers. By intelligently using of the space in the bulkhead, AirPax combines half a galley (8 half-size trolleys, up to 20 service units) with 2 lavatories. In flight, they can very easily be turned into one large, PRM lavatory.

BENEFITS

- 60 kg less weight than standard solutions
- Up to 6 more seats
- Attractive total costs
- Robust and durable
- PRM functionality
